

Vintage Cathode Ray Tube Television

This is a vintage cathode ray tube television. It features a square screen and a thick black bezel, reminiscent of older television models.

Product Overview

Vintage Cathode Ray Tube Television

This vintage cathode ray tube television features a classic square screen design paired with a thick black bezel for an authentic retro aesthetic. The unit is constructed with a distinctive silver-colored lower section mounted on a sturdy black base. It represents a timeless design era, ideal for collectors, film production props, or vintage-themed display setups.
