

Vintage Flat-Screen CRT Television with Integrated Speakers

This is a vintage flat-screen CRT television with integrated side-mounted speakers. The unit features a silver and white color scheme with a dark screen and front-facing controls.

Overview

Vintage Flat-Screen CRT Television

This vintage flat-screen CRT television offers a nostalgic aesthetic combined with functional audio-visual capabilities. Featuring a distinct silver and white color scheme and integrated side-mounted speakers, this unit captures the design essence of late 20th-century electronics. It is an ideal choice for collectors or projects requiring authentic period-accurate hardware.
