

Vintage LCD Television with Integrated Speakers

This LCD television features integrated speakers on both sides of the screen. The vintage design includes a white bezel and stand, complemented by a black frame around the display.

Product Overview

Vintage LCD Television

This vintage LCD television represents an early era of flat-panel display technology, featuring a distinctive design with integrated side-mounted speakers. Its white bezel and stand provide a classic aesthetic suitable for retro-tech collectors or nostalgic displays. The integrated audio system ensures a compact footprint, making it a unique piece of consumer electronics history.
