

Vintage Road Bicycle with Steel Frame

This vintage road bicycle features a silver-colored steel frame and drop handlebars. Equipped with caliper brakes and a multi-speed drivetrain, it is suitable for recreational riding and commuting.

Product Overview

Vintage Roadster Design

This classic roadster bicycle combines timeless aesthetics with a robust steel construction. Engineered for recreational riding and urban commuting, it features a responsive 12-speed drivetrain and reliable caliper braking. Complete with essential accessories like mudguards and reflectors, it offers a blend of performance, durability, and vintage appeal.
