

# Vintage Style LED Filament Bulb

This LED filament bulb features a clear glass design with vertically arranged LED filaments. It emits a warm, ambient light and is ideal for decorative lighting applications.

## Overview

### Vintage Aesthetic, Modern Efficiency

This vintage-style LED filament bulb seamlessly blends classic design with modern energy-efficient technology. Featuring vertical LED filaments encased in clear glass, it provides a warm, ambient glow perfect for decorative lighting applications. It is an ideal choice for exposed bulb fixtures, chandeliers, and pendant lights where aesthetics are as important as performance.
