

Vintage Style LED Filament Bulb

This LED filament bulb combines vintage aesthetics with modern energy efficiency. Featuring a classic globe shape and amber-tinted glass, it emits a warm, inviting light.

Product Overview

Vintage Aesthetic, Modern Efficiency

This LED filament bulb perfectly blends the classic charm of traditional incandescent lighting with modern energy-saving technology. Designed with a vintage style, it features a globe shape and amber-tinted glass that emits a warm, inviting light. It is an ideal choice for decorative lighting, pendant fixtures, and any application where an exposed bulb is desired, offering both style and eco-friendly performance.
