

Vintage Style LED Filament Bulb

This vintage-style LED bulb provides a warm amber glow. Its clear glass enclosure showcases an intricate filament design and it operates at low power consumption with a long lifespan.

Product Overview

Vintage Aesthetic with Modern Efficiency

The BT180 LED filament bulb combines a classic vintage aesthetic with high-efficiency LED technology. Designed for decorative lighting, it features a distinctive filament design available in clear, amber, and grey glass finishes to suit various interior styles. With a long operational life and dimmable functionality, this bulb offers both durability and versatile ambiance control for professional lighting applications.
