

Vintage Television Set with Integrated Speakers

This vintage television set features a built-in screen and integrated speaker grills. The TV has a sleek finish with a black bezel surrounding the display.

Product Overview

Vintage Aesthetic Meets Functional Design

This vintage-style television set captures the classic appeal of mid-century electronics with its distinctive boxy form factor and integrated side-mounted speaker grills. Designed for both display and utility, it features a sleek silver finish paired with a professional black bezel. The included reflective stand provides an elevated presentation, making it an ideal choice for interior design projects, studio sets, or specialized media installations.
