

# Walk-Behind Concrete Cutter

This walk-behind concrete cutter is designed for cutting concrete and asphalt surfaces. It features adjustable cutting depth and a water cooling system to reduce dust and extend blade life.

## ADDITIONAL IMAGES

## Product Overview

### Professional Concrete & Asphalt Cutting

This walk-behind concrete cutter is engineered for precision and durability on both concrete and asphalt surfaces. Featuring a robust frame with an integrated wheel system, it ensures excellent maneuverability and ease of transport on job sites. The unit is equipped with advanced safety features, including blade guards and an emergency shut-off, alongside a water cooling system to minimize dust and maximize blade longevity.

## Technical Specifications

### Cutting Capabilities

- Concrete surfaces
- Asphalt surfaces
- Adjustable cutting depth

### Safety Features

Blade Guard • Emergency Shut-off

### Power Source Options

Diesel Engine, Gasoline Engine

## Design & Build

### Design Highlights

- Robust reinforced frame
- Ergonomic handles
- Integrated transport wheels
- Water cooling system
