

Walk-Behind Snow Blower with 196cc Engine

This walk-behind snow blower is equipped with a 196cc, 4-stroke engine and has a 56cm working width. It offers both manual and electric start options for ease of use.

Product Overview

High-Efficiency Snow Management

This robust 196cc walk-behind snow blower is engineered for reliable performance in harsh winter conditions. Featuring a 4-stroke OHV engine and versatile 5-speed forward transmission, it provides the power and control necessary to clear driveways and pathways efficiently. Its adjustable discharge chute and durable snow-hog tires ensure precise snow placement and excellent traction on icy surfaces.

Engine and Performance

Rated Power

6.5 hp

Engine Power

196 cc

Engine Displacement

Technical Specifications

- Engine type: 168FBE, OHV, 4-stroke
- Start mode: Manual/Electric
- Fuel Type: Unleaded oil
- Fuel Tank Capacity: 3.6 L
- Lubricant Tank Capacity: 0.6 L
- Battery: 12V

Operation and Capacity

Operational Capacities

56 cm

Working Width

50 cm

Working Thickness

Transmission and Mobility

- Gears: 5 Forward / 2 Reverse
- Transmission: Friction disc
- Tires: Snow Hog

Chute Control

Discharge Capabilities

- Horizontal Rotation: 190 degrees
- Vertical Rotation: 70 degrees
- Adjustment: Manual
