

Walk-Behind Sweeper

This walk-behind sweeper is designed for efficient cleaning of various surfaces. It features a rotating brush and collection container for easy disposal of debris.

Product Overview

Professional Walk-Behind Sweeper

This walk-behind sweeping machine is designed for the efficient cleaning of various commercial and industrial surfaces. It features a high-performance rotating brush system that effectively captures debris, depositing it into an integrated collection container for convenient disposal. Versatile and durable, it is suitable for both indoor and outdoor environments, providing a reliable solution for facility maintenance.
