Product Overview

Professional Concrete Finishing

This walking-type power trowel is a versatile machine designed for smoothing and finishing concrete surfaces with precision. It features a robust engine for reliable power and a circular trowel assembly with multiple blades for efficient surface treatment. Engineered for safety and ease of use, it includes a protective cage and an adjustable handle for operator control, making it an ideal solution for plasterers and floor finishers seeking a smooth, level surface.

Key Features

Operational Advantages

- Easy and safe operation
- Low maintenance cost
- Long service life design
- High performance and durability

Technical Specifications

Power Output

5.5 hp
Power

Engine Model	Honda GX160
Weight	92.5 kg
Operating Speed	0-180 rpm

Capacity & Dimensions

Fuel Tank Capacity	3.6 L
Lubricating Oil Quantity	0.6 L

Blade Configuration

Spatula Size	350 x 150 mm
Number of Spatulas	4
