

Walking Tractor

The walking tractor is a versatile agricultural machine designed for tilling, plowing, harrowing, and other field operations. Featuring a robust diesel engine, it delivers reliable power for demanding tasks.

Product Overview

Versatile Agricultural Performance

The DF-15L walking tractor is a robust and efficient agricultural machine engineered for diverse field operations, including tilling, plowing, and harrowing. Its compact and maneuverable design makes it an ideal solution for small to medium-sized farms requiring reliable mechanical power. With ergonomic controls and adjustable features, the tractor balances heavy-duty performance with operator comfort and safety.

Key Features

Safety Systems

- Engine kill switch
- Protective guards

Application Fields

Tilling, Plowing, Harrowing
