

Walking Tractor

This walking tractor is a versatile agricultural machine designed for plowing, tilling, harrowing, and other field operations. Powered by a robust diesel engine, it delivers reliable performance and efficient fuel consumption.

Product Overview

Versatile Agricultural Performance

The CF101 series walking tractor is a versatile agricultural machine engineered for demanding field operations including plowing, tilling, and harrowing. Its robust diesel engine ensures reliable performance and fuel efficiency, while the compact design allows for exceptional maneuverability on small to medium-sized farms. Designed with operator comfort in mind, it features adjustable handles and simplified control systems to increase productivity during long work sessions.

Technical Specifications

Compatible Implements

- Plows
- Tillers
- Trailers

Engine Type	Diesel
Transmission	Multiple forward and reverse gears

Operational Features

Durability

Heavy Duty • Easy Maintenance

Operator Features	Adjustable Handles, Easy Control, High Maneuverability
