

# Walking Tractor

The walking tractor is a versatile agricultural machine designed for various farming tasks. Its compact design allows for maneuverability in tight spaces, making it suitable for small to medium-sized farms.

## ADDITIONAL IMAGES

## Overview

### Versatile Agricultural Walking Tractor

This walking tractor is a robust, single-axle, dual-purpose machine designed for both traction and drive applications on small to medium-sized farms. Featuring a powerful horizontal 4-stroke diesel engine, it offers reliable performance for a variety of tasks including plowing, tilling, and transport. Its compact design and adjustable handlebars ensure excellent maneuverability in confined spaces and operator comfort during extended use.

## Performance Metrics

### Engine Power Ratings

**12.65 hp**

1-Hour Rated Output (DF-12L)

**11.29 hp**

12-Hour Rated Output (DF-12L)

**14.3 hp**

1-Hour Rated Output (DF-15L)

**13.33 hp**

12-Hour Rated Output (DF-15L)

## Technical Specifications

### Machine Dimensions and Weight

Metric	DF-12L	DF-15L
Structure Weight (kg)	353	363
Working Weight w/ Rotavator (kg)	493	508
Rototilling Width (mm)	600	600
Overall Dimensions (mm)	2680x960x1250	2680x960x1250

### Optional Farm Implements

- Anti-skid steel wheel Model 100-640
- Double-furrow plough Model 1LS-220
- Disk plough Model 1LS-220Y
- Power driven disk plough Model 1LYQ-320
- Sprinkler Model 8Y-80
- Swather/reaper Model 4GL-120
- Trailer 7C-1.5 (Standard)
- Trailer 7C-1.5BH (Hydraulic)

## Operational Details

### Transmission and Cooling

Horizontal 4-stroke, Condenser Cooling, Belt-driven, Multiple forward/reverse gears
