

Walking Tractor for Soil Preparation

This walking tractor is a versatile agricultural machine designed for various farming tasks. It features a robust engine providing ample power for tilling, plowing, and other soil preparation activities.

Product Overview

Versatile Soil Preparation Solution

The CF151 walking tractor is a robust agricultural machine engineered for high performance in soil preparation tasks. It is ideally suited for small to medium-sized farms and gardens, offering the perfect balance of power and maneuverability. Built with durable materials, this tractor ensures long-term reliability and efficiency for diverse tilling and plowing needs.

Technical Specifications

Engine Type	Diesel
Primary Applications	Tilling, Plowing, Soil Cultivation

Design and Handling

Control Features

- Precise steering system
- Ergonomically located operator controls
- Compact form factor

Construction

Durable • Agricultural-grade
