Wall and Window Mountable Exhaust Fan

This exhaust fan is designed for efficient ventilation in residential and commercial spaces. Its durable plastic construction allows for wall or window mounting.

Product Overview

Efficient Ventilation Solution

The APB-D exhaust fan is engineered for versatile ventilation in both residential and commercial environments. Designed for simple wall or window mounting, it features a durable plastic construction and an aerodynamic blade design for optimal airflow. With a built-in backdraft damper and high-performance motor, this unit ensures reliable operation while maintaining a quiet environment.

Technical Specifications

Voltage	120 V
Frequency	60 Hz
Power Consumption	25 W

Performance Metrics

Airflow

100 CFM
Airflow Rate

Noise Level

35 dB
Noise Level

Features & Installation

Key Features

- Built-in backdraft damper
- Aerodynamic blade design
- Durable plastic construction
- Quiet operation

Ideal Applications

Bathrooms • Kitchens • Commercial Spaces • Residential Areas

Mounting Options	Wall Mount, Window Mount
