

Wall Mount Stainless Steel Range Hood with Glass Canopy

This range hood is designed to remove smoke, grease, and odors from the kitchen while cooking. It features a stainless steel construction with a glass canopy, providing a modern and stylish appearance.

Product Overview

Professional Kitchen Ventilation

This wall-mounted range hood combines high-performance smoke and odor extraction with a sophisticated aesthetic. Constructed from durable stainless steel and finished with a sleek glass canopy, it integrates seamlessly into modern commercial or residential kitchen designs. The unit is equipped with built-in illumination for clear visibility and intuitive push-button controls for reliable operation during cooking.
