Product Overview

Professional Tire Storage Solution

This heavy-duty wall-mounted tire rack is engineered for efficient tire organization in garages, workshops, and retail environments. Constructed from robust, powder-coated steel, it offers exceptional durability and corrosion resistance for long-term use. The triangular support structure ensures enhanced stability and high load-bearing capacity, making it a reliable choice for professional and home applications.

Design and Build

Material Finish	Black powder-coated steel
Mounting Type	Wall-mounted
Design Features	Triangular support, Angled supports, Horizontal bar, Corrosion resistant

Applications

Suitable Environments

- Professional garage
- Workshop
- Retail environment
- Home garage
