

Wall Mounted Air Conditioner 9000-14000 BTU

This wall-mounted air conditioning unit is available in ON/OFF and DC Inverter models and uses R410A and R22 refrigerants. It has cooling capacities ranging from 9000 BTU to 14000 BTU.

Overview

High-Efficiency Climate Control

This versatile wall-mounted air conditioning unit provides reliable cooling solutions for both residential and commercial spaces. Engineered to support a wide range of capacities from 9000 BTU to 14000 BTU, it ensures optimal temperature management in various environments. The system is designed for flexibility, offering both traditional ON/OFF and energy-efficient DC Inverter configurations.
