

Wall-Mounted Aluminum Snap Frame Light Box

This light box features an aluminum frame with a snap design for easy graphic changes. It is designed for wall mounting in various commercial settings.

Product Overview

Professional Snap Frame Light Boxes

These aluminum snap frame light boxes offer a versatile and professional solution for high-impact visual displays. Designed for wall mounting, the snap-open mechanism allows for quick and easy graphic changes, making them ideal for dynamic environments like restaurants, retail stores, and exhibition halls. Available in two distinct series, these units provide options for ultra-thin profiles or reinforced frames to suit various installation requirements.
