Product Overview

Professional Kitchen Ventilation

This modern wall-mounted range hood features a sophisticated black glass finish and a minimalist stainless steel design that complements any contemporary kitchen. Engineered for performance, it utilizes a powerful 280W motor to ensure efficient smoke and odor removal. Its sleek aesthetics, combined with practical features like integrated lighting and touch controls, provide both style and high-functioning ventilation for professional-grade cooking environments.

Technical Specifications

Energy Efficiency Index

Level 1

Motor Input Power	280 W
