

Wall Mounted Electrical Distribution Box

This wall-mounted electrical distribution box is designed for residential or commercial applications. The durable plastic enclosure features a hinged, transparent cover for easy access and inspection of internal components.

Product Overview

Professional Electrical Distribution

This wall-mounted electrical distribution box is engineered for reliable power management in both residential and commercial environments. It provides a secure, organized enclosure for housing circuit breakers and essential protective devices. With its durable construction and transparent hinged cover, it allows for both robust protection and quick, convenient system inspection.
