

Wall-Mounted Exhaust Fan for Ventilation

This wall-mounted exhaust fan is designed for ventilation in enclosed spaces. The fan removes stale air, odors, and moisture from rooms such as bathrooms and kitchens.

Product Overview

Professional Ventilation Solution

This wall-mounted electrical exhaust fan is engineered to provide efficient air circulation in both residential and commercial settings. Designed with a durable square frame and a high-performance multi-blade propeller, it effectively removes stale air, odors, and moisture from enclosed spaces like kitchens and bathrooms. The unit features a protective grill for safety and is built for straightforward installation and long-term reliability.

Design & Construction

Mounting Type	Wall-mounted
Frame Material	Durable plastic
Safety Features	Protective grill, Enclosed motor, Safety screen

Performance & Application

Recommended Applications

- Residential bathrooms
- Kitchens
- Enclosed commercial spaces

Key Functions

Air circulation • Moisture removal • Odor extraction
