

Wall-Mounted Exhaust Fan with Louvers

This wall-mounted exhaust fan is designed for ventilation purposes. It features a square frame with horizontal louvers on the front to prevent backdraft and protect the fan blades.

Overview

Professional Ventilation Solution

The KHG-O wall-mounted exhaust fan is engineered for efficient air circulation in residential and commercial spaces. Featuring a durable plastic construction and a protective louvered design, this unit effectively prevents backdraft while ensuring consistent airflow. It is an ideal choice for bathrooms, kitchens, and other environments where moisture and odor control are essential.
