Product Overview

Efficient Heating Solution

This wall-mounted PTC fan heater combines high-efficiency ceramic heating technology with a sleek, space-saving design. Equipped with a digital LED display and electronic thermostat, it offers precise climate control for professional or domestic environments. The unit includes advanced safety features like thermal cut-out and overheat protection for reliable operation.

Technical Specifications

Heating Power

1000 W
Low Power

2000 W
High Power

Electrical Input

220-240V / 50Hz

Power Cord Length

1.5 m

Features

Control Methods

- Manual Control
- Remote Control
- Electronic Thermostat

Core Functions

Automatic Oscillating Louvers, 8-Hour Timer, LED Digital Display, Room Temperature Adjustment

Safety and Compliance

Safety Standards

- Thermal Cut-out
- Overheat Protection

Certifications

GS • CE • ERP
