

Wall-Mounted Split Air Conditioner with Remote Control

This air conditioner is a split system with an indoor and outdoor unit. A remote control allows users to adjust temperature and fan settings.

Overview

Efficient Cooling Solution

This wall-mounted split air conditioner system provides a comprehensive climate control solution for indoor environments. The system consists of a sleek indoor unit for air circulation and a robust outdoor unit housing the high-performance compressor and heat exchanger. Users can easily manage their comfort levels using the included remote control to adjust temperature, fan speed, and operating modes.

System Components

Included Components

- Indoor unit (wall-mounted)
- Outdoor unit (compressor & heat exchanger)
- Remote control
