

Wall-Mounted Ventilation Fan

This wall-mounted exhaust fan is designed for ventilation purposes. Constructed from durable white plastic, it features a square-shaped front grill with horizontal slats for airflow control.

Product Overview

Efficient Air Extraction

This wall-mounted exhaust fan is designed to provide reliable ventilation for residential and commercial spaces. Its durable white plastic construction ensures longevity, while the square-shaped front grill with horizontal slats facilitates optimal airflow and safety. It is an ideal solution for bathrooms, kitchens, and other areas requiring the removal of moisture, odors, and stale air to maintain a healthy indoor environment.

Physical Characteristics

Mounting Style	Wall-mounted
Construction Material	Durable plastic
Color	White

Design Features

Grill Design	Square-shaped with horizontal slats
