

# Wall-Mounted Water Purifier

This wall-mounted water purifier is designed for household use. It features a multi-stage filtration system to remove impurities and contaminants from tap water.

## Product Overview

### Wall-Mounted Water Purification System

This professional-grade, wall-mounted water purifier is engineered to deliver high-quality, safe drinking water for household applications. Featuring an advanced multi-stage filtration system with a precision of 0.01µm, it effectively removes common tap water impurities. Its compact, space-saving design ensures simple installation while providing a consistent outflow rate for daily needs.

## Technical Specifications

Water Temperature Range	5-38
Water Pressure	0.1-0.4 Mpa
Outflow Rate	2.5 L/min
Filtration Precision	0.01 µm

## Model Comparison

### Comparison Table

Feature	Model CJ-2 GR	Model CJ-2 GJ
Filter System	Resin+Resin+UF+Post-AC	PP+GAC+UF+Post-ac

## Logistics and Dimensions

### Loading Capacity

**512 PCS**

20'GP Capacity

**1632 PCS**

40'HQ Capacity

### Unit Dimensions

340 x 125 x 450 mm
