Product Overview

Compact Power and Charging Solution

This wall tap efficiently expands a single standard wall outlet into a versatile power hub. Designed for modern connectivity, it features one AC outlet combined with dual high-speed USB charging ports. Built with safety and convenience in mind, it includes surge protection to safeguard sensitive mobile devices and laptops from unexpected power spikes.

Technical Specifications

USB Charging Output	2.4 A
Surge Protection	300 Joules

Features and Compliance

Highlighted Capabilities

- Dual USB charging ports
- Standard AC outlet expansion
- Built-in surge protection
- Integrated surge indicator light
- Compact and portable design

Safety Certifications	ETL Listed, Intertek Certified
