

Washing Machine Electronic Control Board

Electronic control boards manage the functions of washing machines. These boards control the motor, water pump, and display.

Product Overview

Electronic Control Board Overview

This high-performance electronic control board is designed to serve as the central processing unit for automatic washing machines. It manages critical appliance operations, including motor synchronization, water pump cycles, and user interface display functionality. Engineered for reliability, this module ensures seamless integration and optimal efficiency in home laundry systems.

Technical Specifications

Compatible Model Series

- SAMSUNG-39
- SAMSUNG-40
- SAMSUNG-41
- SAMSUNG-42
- SAMSUNG-43
- SAMSUNG-44
- SAMSUNG-45
- SAMSUNG-46
- SAMSUNG-47
- SAMSUNG-48
- SAMSUNG-49
- SAMSUNG-50
- SAMSUNG-51
- SAMSUNG-52
- SAMSUNG-53
- SAMSUNG-54

Display Configuration

18 digits

Display Segment Capacity

88 LEDs

Indicator Count

Core Functions

Motor Control, Water Pump Regulation, Display Management
