

Washing Machine Replacement Motor

This is a replacement motor for washing machines. It is designed to provide the necessary power for the washing machine's spin and wash cycles.

Product Overview

High-Efficiency Replacement Motor

This robust replacement motor is engineered specifically for demanding laundry applications, providing consistent power for both wash and spin cycles. Designed for longevity, the unit features a durable metal housing and a secure mounting bracket to withstand frequent, heavy-duty use. It serves as a vital component in maintaining appliance performance and restoring operational efficiency.

Technical Specifications

Housing Material	Metal
Mounting System	Integrated Mounting Bracket
Application Compatibility	Washing Machine, Drying Machine

Performance

Functional Roles

- Wash Cycle Power
- Spin Cycle Operation
