Watch Anti-Theft Display Holder with Alarm

This display holder is designed to protect watches from theft in retail environments. It features an integrated alarm system that triggers upon unauthorized removal or tampering.

ADDITIONAL IMAGES

Product Overview

Provides a robust, elegant grip for high-value timepieces while maintaining a clean, professional store aesthetic.

Retail Security Display Solution

This EAS (Electronic Article Surveillance) alarm anti-theft display holder is engineered specifically for watch retail environments. It combines high-level security with an elegant presentation, allowing customers to freely handle and try on timepieces while keeping them protected. The device features an integrated alarm system that triggers upon tampering, wire cutting, or unauthorized removal from the display surface.

Technical Specifications

Dimensions	55 x 50 x 35 mm
Material	ABS
Color	White
Alarm Mode	Buzzer, LED Indicator
Compatibility	Apple Watch, Android Smart Watches

Security Features

The alarm triggers instantly if the spring wire is cut, sensors are disconnected, or the unit is pried from the counter.

Alarm Triggers

- Cutting of the spring wire
- Pulling out the sensor connector
- Pulling out the power/data connector
- Removal or prying of the stand from the display surface

Installation & Usage

Designed for versatility, this mount supports both 3M adhesive and screw-based installation for secure retail placement.

The base features inductive contacts, 3M adhesive backing, and a power cable port for reliable operation.

Mounting Options

- 3M Adhesive tape
- Screw mounting
