

Water Bottle Dispenser Rack with Spigot

This bottle rack shelf is designed to securely hold a large water bottle, providing easy access to dispensed water. It features a sturdy frame and an integrated aqua valve water spout for convenient dispensing.

Product Overview

Efficient Water Dispensing Solution

This water bottle dispenser rack provides a reliable and convenient way to dispense bottled water without the need for heavy lifting or tilting. Constructed from durable metal with a black finish, the system includes an integrated aqua valve for fast, controlled flow. Designed to prevent biofilm growth by eliminating reservoirs, this solution ensures a clean and drip-free dispensing experience for home or office environments.
