

Water Filter Cartridge 142 x 348 x 144 mm

This is a high-performance water filter cartridge with dimensions of 142x348x144mm. It employs advanced filtration technology to remove impurities and contaminants, providing safe and healthy drinking water.

Overview

High-Performance Filtration

This water filter cartridge is engineered to provide reliable purification for water dispensers, ensuring clean and safe water for consumption. Designed with precise dimensions, it utilizes advanced filtration technology to effectively remove impurities and contaminants. It is built for easy installation and seamless replacement in compatible water dispenser systems.

Dimensions

Width	142 mm
Height	348 mm
Depth	144 mm

Technical Details

Filter Type	Ultrafiltration Membrane
Primary Application	Water Dispensers, Household Consumption
