

Water Pump for Irrigation and Drainage

This water pump is designed for agricultural and industrial applications, providing high-volume water transfer. Its durable construction ensures long-lasting performance in demanding environments, making it ideal for irrigation and drainage.

Overview

High-Efficiency Water Pump

This robust water pump is engineered for demanding agricultural and industrial applications, providing reliable performance for irrigation and drainage tasks. Powered by a high-performance 4-stroke engine, it delivers impressive flow rates while maintaining fuel efficiency. Its portable design and durable construction ensure it can be easily transported and operated in diverse environments, minimizing downtime and maximizing operational productivity.

Performance Metrics

Key Performance Indicators

55 m³/h

Volume of Flow

24 m

Lift Height

6 m

Suction Depth

Engine Specifications

Engine Details

Parameter	Specification
Engine Type	4-stroke, air cooling, single cylinder
Displacement	163 cc
Starting Mode	Recoil Start
Fuel Tank Capacity	3.6 L

Physical Dimensions

Dimensions & Weight

- Dimensions: 510 x 390 x 495 mm
- Gross Weight: 27 kg
- Net Weight: 24 kg

Logistics

Container Loading Capacity	20GP: 310 units / 40HQ: 720 units
----------------------------	-----------------------------------

Technical Features

In/Out Pipe Diameter	80 mm
