Overview

Professional Multi-Functional Sprinkler Tricycle

This multi-functional tricycle sprayer is engineered for versatile utility in environmental maintenance, including dust suppression, road flushing, and agricultural irrigation. Built on a reinforced chassis, it features a 2.5 cubic meter capacity tank and a powerful high-pressure pump system. It offers a wide range of spraying modes, including manual spray gun operation for targeted tasks and automated nozzle systems for efficient area coverage.

Performance Metrics

Spraying Capabilities

8 m

Rear Spray Width

20 m

Hydraulic Spray Range

10 m

Spray Gun Vertical Range

Technical Specifications

Water Tank Capacity	2.5 m3
Sprinkler Pump Power	3 kW
Fog Gun Motor	1.5 kW
Fan Motor	2.2 kW

Application Areas

Primary Applications	Environmental Greening, Dust Suppression, Road Flushing, Agricultural Irrigation, Urban Cleaning
