Product Overview

High-Performance Gasoline Water Pumps

These professional-grade water transfer pumps feature robust, air-cooled 2-stroke gasoline engines designed for reliability in irrigation, cleaning, and fire fighting applications. Engineered with aluminum impellers and pump housings, they offer an ideal balance of lightweight portability and heavy-duty performance. Advanced features like heavy-duty air filtration and easy-start mechanisms ensure long service life and reduced operational effort for the end-user.

Technical Specifications

Model Specifications

| Feature | QGZ25-30A | QGZ40-35A |
|--------------|---------------------|----------------------|
| Power | 0.9 kW | 1.25 kW |
| Displacement | 32.6 cc | 42.7 cc |
| Inlet/Outlet | 1 inch | 1.5 inch |
| Flow Rate | 8 m ³ /h | 15 m ³ /h |
| Max Lift | 30 m | 35 m |
| Net Weight | 7.5 kg | 8.5 kg |

Engine Performance

7500 rpm

Operational Speed

8 m

Suction Head

Compliance and Logistics
