

Waterproof Aluminum Oxide Sandpaper

Waterproof abrasive paper is coated with aluminum oxide grit. It is suitable for wet and dry sanding of metal, wood, and plastic.

Product Overview

Versatile Abrasive Solution

This waterproof abrasive paper is precision-coated with high-quality aluminum oxide grit, designed for both wet and dry sanding applications. Its durable, waterproof backing allows for seamless use with water or lubricants, which effectively reduces clogging and significantly extends the service life of the abrasive. Ideal for a wide range of materials including metal, wood, and plastic, this paper supports professional workflows from coarse stock removal to fine, smooth polishing.

Technical Specifications

Compatible Materials

- Metal
- Wood
- Plastic

Application Range

Stock Removal • Fine Polishing
