Overview

High-Performance Waterproof Scale

Designed for demanding environments, this digital portion control scale features a robust, IP68-rated stainless steel housing to withstand washdown procedures in food processing, catering, and meat preparation areas. It offers high-precision weighing with an anti-corrosion loadcell, ensuring reliable resolution for critical portioning tasks. With integrated carry handles, adjustable feet, and a versatile dual-power system, this scale provides the stability, portability, and accuracy required for professional kitchen and laboratory operations.

Construction & Design

Waterproof Rating

IP68

Housing Material

Stainless Steel

Portability & Setup

Carry Handles, Leveling Bubble, Adjustable Feet

Performance Metrics

Capacity Options

Model	Capacity (Metric)	Capacity (Imperial)
EH-SS-3	3kg x 0.5g	6lb x 0.001lb
EH-SS-6	6kg x 1g	15lb x 0.002lb
EH-SS-15	15kg x 2g	30lb x 0.005lb
EH-SS-30	30kg x 5g	60lb x 0.01lb

Operating Temperature

-10 °C
Min Temp

40 °C
Max Temp

Supported Units

kg, g, lb, lb:oz

Display & Operation

Available Functions

- Weighing
- Check-weighing
- Counting
- Auto power saving

Display

6-digit, 13mm high red LED with adjustable brightness

Power & Compliance

Power Options

Internal AC adapter or 6V 4Ah rechargeable lead-acid battery

Approvals

CE, WEEE, UL/CE/BS Power Adapter
