Product Overview

Waterproof design featuring dual port fast charging capabilities.

High-Performance Charging Socket

This waterproof fast charging socket is engineered for versatile use in DC 12V-24V environments, including cars, trucks, and marine vessels. Featuring both QC 3.0 and PD 45W charging capabilities, it ensures rapid power delivery for modern smartphones, tablets, and electronic devices. The durable, fireproof construction and protective cap design provide reliable operation in outdoor or harsh conditions.

Technical Specifications

Output Current

- 5V/3.6A
- 9V/2A
- 12V/1.5A

Input Voltage Range	12V - 24V DC
PD Charging Power	45 W

Physical Characteristics

Durable construction with port protection cover.

Color
Black

Material PC Fireproof Material

Weight 0.045 g

Compatibility & Features

Compact and easy to install for automotive and marine use.

Suitable Applications Cars, Marine/Boats, Trucks, 12V-24V Vehicles

Key Features Waterproof, QC 3.0, PD 3.0, Independent Fast Charge Button
