Product Overview

Versatile Abrasive Solution

This professional-grade silicon carbide sanding paper is engineered for high-performance wet and dry sanding applications. Its durable resin-over-resin construction provides excellent resistance to water and oil, ensuring a consistent finish even under intensive use. Ideally suited for automotive, stainless steel, and general fine grinding tasks, it offers a reliable solution for precision surface preparation.

Technical Specifications

Grit Range	P60-P2000
Abrasive Material	Silicon Carbide
Binder Type	Resin over Resin
Backing Material	Kraft Paper

Performance Features

Suitable Materials

- Automotive surfaces
- Stainless steel
- Wood
- Metal
- Plastic
- Painted surfaces

Key Performance Features

Waterproof, Oil Resistant, Consistent Finish, Anti-Clogging

Compliance & Quality

Certifications

BSCI • FSC • MPA
