

Weatherproof Damp-Proof Light Fixture

This weatherproof lighting fixture is designed for damp or wet environments. It features a durable housing and protective cover to shield the bulb from damage and moisture.

Product Overview

Weatherproof Damp-Proof Light Fixture

This general-purpose luminaire is engineered for durability in challenging environments. Constructed using aluminum die-casting and a protective powder-coating, it offers reliable resistance against dust and moisture ingress. It is an ideal lighting solution for bathrooms, kitchens, garages, and various outdoor applications.

Technical Specifications

Ingress Protection

IP44

Illumination Area

10 m²

Min Area

15 m²

Max Area

Voltage

110V~240V

Construction & Materials

Manufacturing Technology

- Aluminum Die-casting
- Powder-coating

Materials

Aluminum, Iron, Plastic

Compatibility

Compatible Lampholders

E27, E14, LED

Compliance

Certifications

CE, UL
