

# Weatherproof Electrical Terminal Box

This IP66 terminal box is designed to protect electrical connections from dust, water, and corrosion. Its secure, gasketed lid and internal mounting points ensure easy installation and reliable performance.

## ADDITIONAL IMAGES

## Product Overview

### Industrial Weatherproof Protection

This mild steel terminal box is engineered for robust industrial applications, providing reliable protection against environmental hazards. Featuring an IP66 protection degree, it effectively seals against dust and water ingress, making it suitable for both indoor and outdoor installations. The unit includes a foamed polyurethane gasket and captive screws to ensure a secure, long-lasting seal for your electrical connections.
