

Weld-On Bucket Tooth Adapter

This weld-on adapter is designed for CAT J450/J460 series bucket teeth. It provides secure attachment and robust performance in metal forming applications.

Product Overview

Heavy-Duty Weld-On Adapter

This weld-on bucket tooth adapter is engineered for robust performance and secure attachment in demanding excavation and earthmoving applications. Designed for compatibility with J450/J460 series systems, it ensures efficient integration with heavy machinery. Constructed from high-grade materials, the adapter offers exceptional durability and resistance to wear under heavy loads and harsh working conditions, facilitating precise and reliable operation.

Compatibility & Fitment

Series Compatibility	J450, J460
Part Number	8E6464

Technical Specifications

Material Quality

High-grade steel • Wear-resistant

Primary Applications

- Metal forming applications
- Heavy load excavation
- Harsh working environments

Attachment Method	Weld-on
