

Welded Steel Mesh Fencing Panel

This welded mesh fencing panel provides a strong and reliable barrier. The mesh features a grid pattern.

Product Overview

Durable Security Fencing Solution

This welded steel mesh fencing panel offers a robust and aesthetically pleasing solution for perimeter security. Engineered for reliability, the grid design provides high visibility while maintaining structural integrity against physical impact. Its integrated finish is specifically designed for outdoor environments, ensuring long-term performance and minimal maintenance requirements.

Technical Specifications

Material	Welded Steel
Surface Finish	Green Powder Coated

Installation Components

Mounting System

- Metal mounting posts
- Secure steel clips

Performance Metrics

Key Capabilities	High Durability, Weather Resistant, Easy Installation, Secure Perimeter
