

Welded Steel Wire Mesh Fence

This welded wire mesh fence is constructed from high-quality steel wire and features a durable coating for long-lasting protection against rust and corrosion. The mesh design provides excellent visibility while maintaining security.

Product Overview

High-Performance Welded Steel Mesh

This welded wire mesh fence is constructed from high-quality steel wire, engineered to provide a robust and reliable boundary solution. Featuring a durable coating, it offers exceptional resistance against rust and corrosion, ensuring long-term performance in various environments. The open mesh design balances high-security property protection with excellent visibility, making it an ideal choice for residential, commercial, and industrial applications.

Technical Specifications

Surface Treatment

Anti-Corrosion • Rust-Resistant

Material Composition

High-quality steel wire

Features & Benefits

Key Advantages

- High visibility mesh design
- Durable steel construction
- Cost-effective boundary solution
- Easy installation process
- Minimal maintenance required

Application

Suitable Environments

Residential, Commercial, Industrial
