

Welded Wire Mesh Garden Fence

This welded wire mesh fence features a 3D curved design for enhanced rigidity. It is constructed from high-tensile steel wire, providing strength and durability.

Product Overview

High-Strength Welded Wire Mesh Solution

This welded wire mesh garden fence is engineered from high-quality low carbon steel wire, offering exceptional durability and structural integrity. Featuring a multi-stage manufacturing process including galvanization and PVC coating, it provides superior anti-corrosion performance suitable for diverse outdoor environments. Its versatile design makes it an ideal choice for securing roads, railways, highways, residential properties, and animal enclosures.

Technical Specifications

Wire Diameter

- 3.0mm
- 3.5mm
- 4.0mm
- 5.0mm

Mesh Opening Sizes

- 50x100mm
- 50x150mm
- 50x200mm
- 60x150mm

Available Heights

- 0.8m
- 1.03m
- 1.23m
- 1.53m
- 1.73m
- 2.03m

Material Composition

Low Carbon Steel, Q235, Q195, S235J2, Galvanized, PVC Coated

Panel Length

2.0m - 2.5m

Aesthetics & Finishing

Available Colors

Green (RAL6005) • White (RAL9010) • Grey (RAL7004) • Yellow (RAL1021) • Black (RAL9005) • Blue (RAL5005)
