

Welding Consumables and Torch Parts

This selection includes consumables and parts for welding torches. It features nozzles, contact tips, insulators, gas diffusers, conductor tubes and liners.

Product Overview

Professional Welding Consumables

This comprehensive selection of high-performance welding torch components includes essential parts designed for reliability and efficiency. The range covers nozzles, contact tips, insulators, gas diffusers, conductor tubes, and wire liners compatible with standard torch systems. Engineered for durability, these consumables provide precise gas distribution and wire feed, ensuring optimal weld integrity for various industrial applications.

Product Features

Included Component Categories

Nozzles, Contact Tips, Insulators, Gas Diffusers, Conductor Tubes, Liners

Technical Specifications

Compatible Series Types

- 22-Series Nozzles
- 24A-Series Nozzles
- 23-Series Insulators
- 24CT-Series Insulators
- 14-Series Contact Tips
- 14T-Series Tapered Tips
- 14H-Series Heavy Duty Tips
- 62A-Series Conductor Tubes

Liner Construction

Standard Steel • Nylon

Nozzle Configurations

- Adjustable
- Insulated
- Insulated Flush
- Insulated Tapered
- Coarse Thread

Performance Data

Supported Wire Diameters

Inches	Metric
.023	0.6mm
.030	0.8mm
.035	0.9mm
.040	1.0mm
.045	1.2mm
3/64"	1.2mm
.052	1.3mm
