

Wet and Dry Vacuum Cleaner

This wet and dry vacuum cleaner is designed for both wet and dry cleaning tasks. Its powerful motor ensures efficient suction, while the multi-stage filtration system captures fine dust particles.

Product Overview

Professional Wet and Dry Vacuuming Solution

This high-performance vacuum cleaner is engineered for demanding wet and dry cleaning environments, from residential use to intensive workshop and commercial applications. Featuring a robust motor and multi-stage filtration system, it effectively captures fine particles while ensuring high-suction efficiency. The design prioritizes mobility and durability, incorporating a stable base with swivel casters for effortless maneuvering across various surfaces.

Performance & Features

Cleaning Capability	Wet Cleaning, Dry Cleaning
Filtration Type	Multi-stage filtration system

Design & Construction

Mobility Features

- Stable base
- Swivel casters for maneuverability
- Convenient carrying handle

Construction Details

- Robust housing construction
- Durable container
- Secure locking mechanism
